

## Meritor Parts

Meritor Parts - The Meritor Company is a premier international supplier established upon 100 years of custom of service and quality. Meritor specializes in integrated systems along with several modules and components to the original machinery makers and aftermarket equipment in the transportation and industrial sectors.

Meritor values the needs of all their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their international operations. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced experts.

By just hiring future focused employees, Meritor strongly thinks these top-caliber individuals will be able to rapidly adapt to changing environments and exhibit the performance and commitment required in order to reach results in the competitive materials handling business. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides their staff different chances for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, suspension and braking systems used for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of all their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group which is committed to ensuring optimum progress at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 nations.

They have their supplier network which is specifically situated to support the development of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each part of the company. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability in each region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean methods.
