

Spreader Bar for Forklifts

Forklift Spreader Bars - Proudly operating since nineteen seventy four, ELME Spreader AB is the largest independent spreader business in the globe. They have been a devoted manufacturer of spreaders intended for different applications like for example the swop bodies, trailers and handling of containers.

ELME currently has more than a hundred and twenty five workers with all engineering is done in house by way of utilizing all of the latest FEM tools and CAD systems. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-around the globe.

The product range of ELME include many spreaders intended for various container and trailer handling operations. Several of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a huge range of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by way of making use of high quality components to be able to ensure reliability and top standards while offering reasonable prices. Major features of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
